RED LIGHT NOT NECESSARY EVIL

Dr. C. O. Beckman Preaches Strong Sermon on Social Purity.

Speaking on social purity and the need of the Christian people in every community to rise up and drive out the red light district, Rev. C. O. Beckman, pastor of the First Methodist church, opened the revival that is to continue through the week with a strong sermon Monday evening on the so-called necessary evil of the large cities. Taking his text from Ecclesiastes, 10th chapter, 8th verse, "Whoso breaketh an hedge, a serpent shall bite him," Rev. Mr. Beckman preached a strong social purity sermon on the topic "A Broken Hedge and the Serpent's Bite."

"There is the hedge of social purity," he said, "a young man and a young woman are reared in the atmosphere of a Christian home, taught that social purity was an absolute requisite for success. They get out in the world, learn father was old fashioned and mother a prude, that young men frequent the red lights and young women are piddy, gad abouts, permit familiarities and they break through the hedge and lo, the serpent's bite."

"The Christian people in every community need to rise up and drive out this so-called necessary evil, the red light. It is not necessary evil men could not live without it, as they cannot without air, water and food. No evil is necessary."

SENSATION DEVELOPING IN MEXICO BANK SUSPENSION

Mexico City, Mex., Feb. 1.—Harwood H. Shippen, a mining man, has taken the first legal action against the United States Banking company, since it closed its doors, by making formal complaint before the procurator of justice, alleging abuse of confidence, and asking that Simpson name the president, vice president, directors and managers of the institution.

He sets out that he secured a loan of \$15,000 giving three notes for the amount, which were secured by 100 shares of mining stock valued at about \$100,000. He says that when he went to the bank for the purpose of paying the loan, but not securing his mining shares the collateral was not forthcoming.

It also develops that Jose I. Llanuatur, minister of finance, offered to make arrangements with the National Bank of Mexico to tide the United States Banking company over its difficulties, just prior to its suspension.

David E. Thompson, former ambassador to Mexico, asserted that Limantour was dishonest and anxious, providing the bank could procure securities, to see that it obtained all the required funds, but the bank was unable to procure acceptable collateral.

He is in El Paso looking after the repairing of his car. The damaged coach was temporarily patched up in the Juarez National railway infirmary.
